## Case Studies

### Jimei Cosmetics (Dongguan) Co., Ltd.

*Incorporated in Hong Kong in June 2002, Jimei Cosmetics (Dongguan) specializes in R&D, production and sales of cosmetics and skincare products. Major customers include Elizabeth Arden, Chanel, Victoria Secret, etc.*

**Feedback:** "iQM has enabled us to manage and monitor the data from the raw materials to the finished product, and the automatic alert and regulation update functions greatly improved our efficiency and profit margin."

US FDA officers visited the inspection center

Officers from Zhanjiang Entry-Exit inspection And Quarantine Bureau visited the system center

Officers from Zhanjiang Entry-Exit inspection And Quarantine Bureau visited the inspection center

### Zhanjiang Guolian Aquatic Products Co., Ltd.

*Established in 2001, Zhanjiang Guolian Aquatic Products Corp. Ltd. is a leading aquatic product company in China that focuses on fish hatchery, farming, feedstock production, processing, science research and trading. The Company covers an area of 160,000 square meters and has an annual production capacity of over 100,000 tons of aquatic products.*

**Feedback:** "iQM has helped increase the transparency of our data and quality control procedures, a key element in helping us to quickly and successfully pass the on-site quality inspections held by US regulatory officials at the end of 2007. We believe that iQM will not only reduce our costs and improve efficiency, but will also be an important competitive advantage for us."

# Key Features and Functionalities

Detailed regulation update alerts for various products, based on the exporting countries

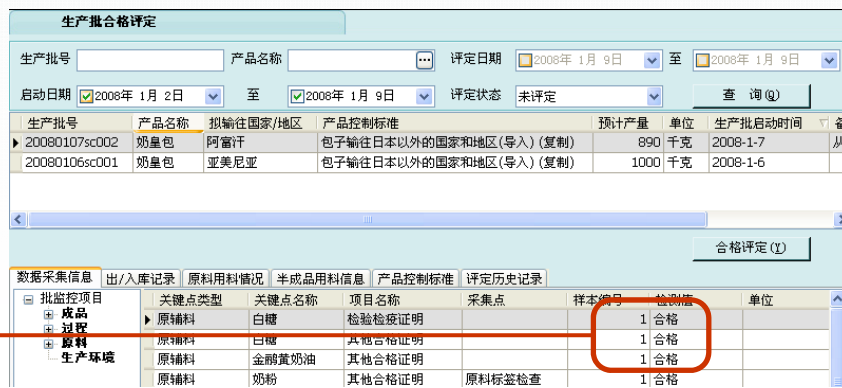

- Regulation on Chinese Buns
- Regulation on Dumplings
- Regulation on Spring Rolls

## Management of Raw Materials

iQM provides data management for key raw materials, including recording and managing the sources of raw materials, lab inspection results, etc.

## Sugar Qualified

Quality control personnel may utilize iQM to monitor and manage all production stages. By utilizing the automatic assessment of quality throughout the production process, iQM can identify if the raw materials or semi-manufactured goods or finished products meet the relevant required quality specifications for different exports to different countries.
